YOUR PRESCRIPTION FOR ALL THINGS SKIN AND BEAUTY

DOCTOR'S ORDERS: TOP PRODUCT PICKS FOR SPRING

DAILY MICROFOLIANT BY DERMALOGICA

"This is a great alternative to the traditional granular exfoliate. This rice base powder mixes with water to leave skin soft, smooth and brighter. It is gentle so any skin type can benefit from it, even the most sensitive skin."

- Dr. Broumand

ADVANCED B5 SERUM BY DERMAQUEST

"Every patient I see suffers at some point from skin dehydration. The Advanced B5 Serum is like giving your skin a drink of water. The key ingredient is sodium hyaluronate, which is the only thing I have found to work effectively for dehydrated parched skin. It can also even be used as a moisturizer for very oily skin"

- Dr. Broumand

ZINCLEAR SPF 30 BY DERMAQUEST

"I recommend this product to every patient I see in my office. It is a physical sunscreen which means once it is applied, it works all day to keep you fully protected from the UVA and UVB rays. It has a sheer lightweight application, making it perfect for any skin type."

- Dr. Broumand

MIA SONIC CLEANSING SYSTEM - PINK BY CLARISONIC

"I have found great results with adding the Clarisonic to the skin care regimen. Especially for those who have keratinized skin. This helps to exfoliate the skin gently while taking your cleansing regime to a new level of cleaning."

- Dr. Broumand

ORGANIC SUN DEFENSE SPF 30 - NO. 0 TRANSLUCENT BY EMINENCE

"In my office we follow any chemical peel or laser resurface treatment with Sun Defense Minerals. This powder has a silky finish that uses micronized zinc to protect the skin, while giving the skin a more even tone post-treatment."

- Dr. Broumand

STAFFORD R. BROUMAND

Stafford R. Broumand, M.D., has some of the most impressive credentials of any plastic surgeon within New York City. Dr. Broumand attended medical school at Yale University and completed general surgery at Mount Sinai Medical Center.
